

## How to Reset Your Password

### Step 1:

Go to the login page here:

<https://ballstrikingblueprint.com/members/>

And click the link where it says “Lost your Password?”

The screenshot shows a login page with a dark blue header containing the logo for 'THE BALLSTRIKING BLUEPRINT WITH Zach Allen'. Below the header is a light gray banner with the text 'Log into Your Account!'. The main content area is white and contains the following elements: a paragraph of text, two input fields, a checkbox, a login button, and a link. A red arrow points to the 'Lost your Password?' link.

To access the training videos, log into your account below. If you need any assistance, please email us at support@ballstrikingblueprint.com.

**Step 2:**

Enter the email address that your membership account is under and click the button that says "Get New Password."

Please enter your username or email address.  
You will receive an email message with  
instructions on how to reset your password.

### **Step 3:**

Check your email and open the email from Zach Allen Golf with subject line: “Your membership password reset request.” If you don’t receive the email, please check that it didn’t get caught in your spam/junk folder.

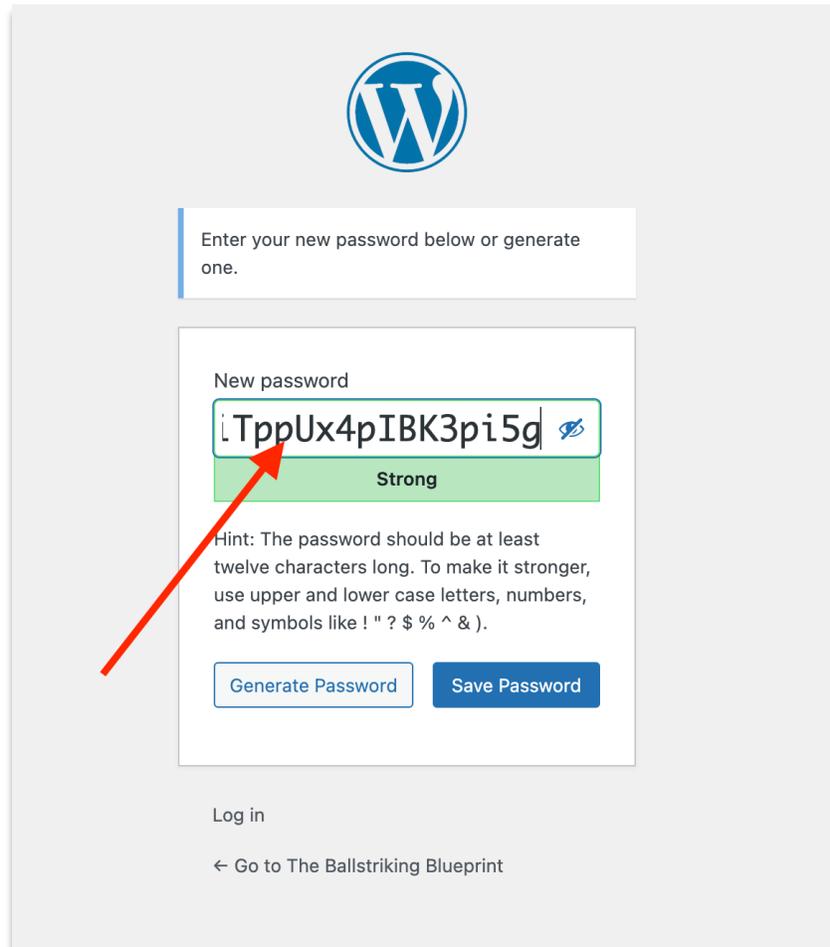

Click the link inside of the email to reset your password.

If nothing happens when you click on the link, you can also copy and paste it into a web browser. (Highlight the text with your mouse, right click and select copy).

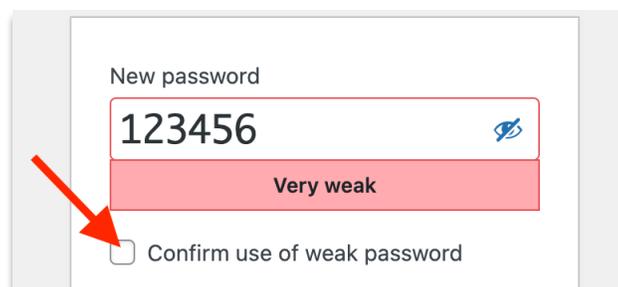

#### Step 4:

The link in the email will bring you to the page where you can choose a new password. **Note:** the “new password” field will be pre-filled with a suggested password. You do NOT need to use the suggested password, you can simply type in whatever you like... the only requirement is that the password you choose is at least 6 characters in length.

The screenshot shows the WordPress password creation interface. At the top is the WordPress logo. Below it is a text box with the instruction: "Enter your new password below or generate one." The main form area is titled "New password" and contains a text input field with the suggested password "lTppUx4pIBK3pi5g" and a strength indicator "Strong" in a green bar. A red arrow points to the input field. Below the input field is a hint: "Hint: The password should be at least twelve characters long. To make it stronger, use upper and lower case letters, numbers, and symbols like ! " ? \$ % ^ & )." At the bottom of the form are two buttons: "Generate Password" and "Save Password". Below the form are links for "Log in" and "< Go to The Ballstriking Blueprint".

Enter the password of your choosing and click “Save Password.” **Note:** If you choose a simple password, you may need to first check a box that says “Confirm use of weak password.”

The screenshot shows the WordPress password creation interface with a different password suggestion. The text input field contains the password "123456" and the strength indicator is "Very weak" in a red bar. A red arrow points to the "Confirm use of weak password" checkbox, which is currently unchecked.

**Step 5:**

That's it, your password has been reset! Clicking the "log in" link shown below will bring you back to the main login page where you can use your new password to log into the membership site.
